Ref: 2021-7370-Noel Conceptualizations of "person-centredness" by French physiotherapists

Dear Clement

The School of Sport & Health Science Research Ethics Committee are happy to offer a favourable ethical opinion for this study.

[A favourable ethical opinion is subject to the following conditions:](#)

Favourable ethical opinion is given on the basis of the information provided in your application, including a project end date of 15/07/2022. Please note that the School of Sport & Health Science Research Ethics Committee must be informed of any changes to the research process after a favourable ethical opinion has been given. If you need to make changes to your proposal, including requesting an extension, please complete and submit a change request form in order that the School of Sport & Health Science Research Ethics Committee can determine whether the changes will necessitate any further ethical review.

We wish you all the best with your research and hope that your research study is successful.

Best wishes

Dr Peter Watt

Chair, School of Sport & Health Science Research Ethics Committee
